

KEYWAVE REPLICATOR KEY PROFILE MILLING MACHINE

Ref. MWEKW1000

Features

Discover the revolution in key profile milling technology with the brand new machine, "KEYWAVE Replicator". Thanks to the KEYWAVE Replicator, you are no longer limited to using existing blanks. Instead, you are able to produce blanks yourself!

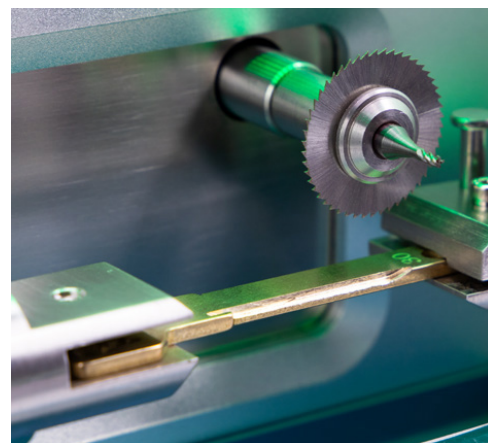

Functions:

- Individual production of blanks
- Profile scanning, cutting and creation of your own blanks
- Create and add blanks as favorites
- Extensive database
- Add profiles to favorites
- User-friendly touch screen
- Intuitive operation
- Works with flat and dimple keys

The hassle of searching for and ordering the right blank is simplified!

The KEYWAVE Replicator can scan profiles, cut from an extensive database and even create customized blanks that you have drawn.

This means fewer different blanks to buy and no more wasted time searching for the right blank. This offers huge advantages, especially for special profiles such as those used in locking systems..
